RESIDENTIAL

Apartment building ABUDHABI, UNITED ARAB EMIRATES

Architectural design+3D rendering exterior, interior, landscape

A contemporary apartment building comprises 28 units, offering four distinct plan types that cater to diverse user requirements in terms of area and functionality. Each apartment incorporates a spacious open-plan design, ensuring ample natural light and ventilation throughout all rooms.

Apartment building interior

ABUDHABI, UNITED ARAB EMIRATES

A modern minimalist interior embodies simplicity and functionality with clean lines and neutral color schemes create a serene atmosphere, while uncluttered spaces promote a sense of calm.

Thoughtfully selected furniture pieces and strategic use of natural light enhance the overall openness and elegance of the design.

Architectural design+3D rendering exterior, interior, landscape.

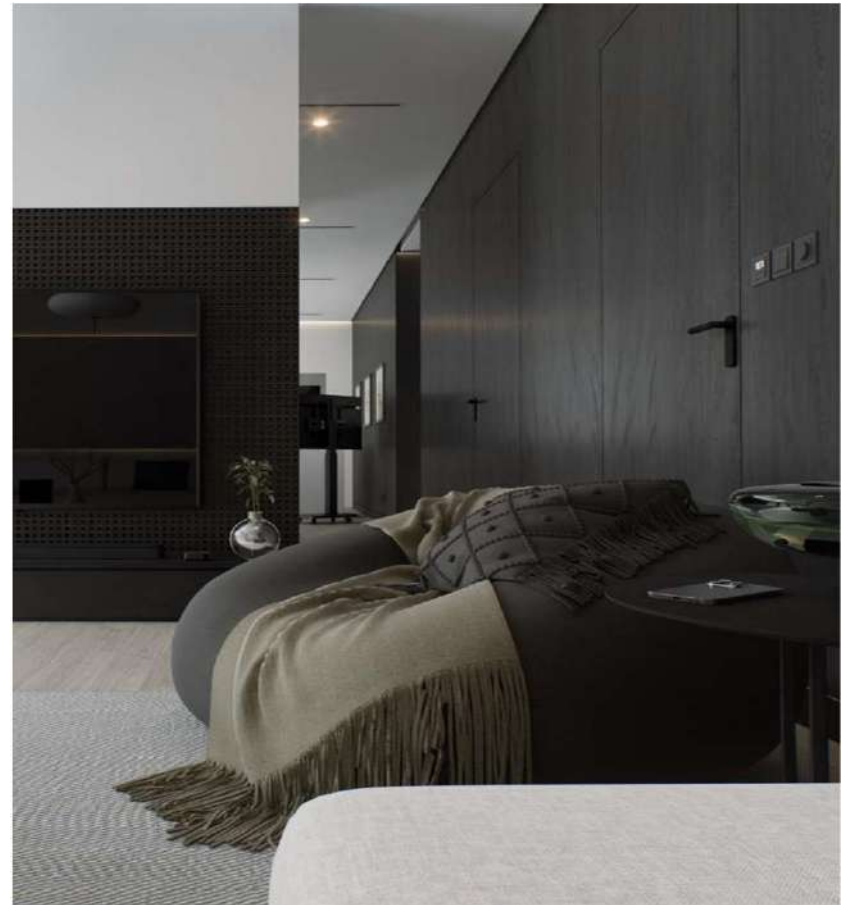

Open spaces, unadorned walls, and a focus on natural materials foster an ambiance of tranquility and harmony, enabling residents to fully immerse themselves in the exquisite allure of minimalism aesthetic appeal.

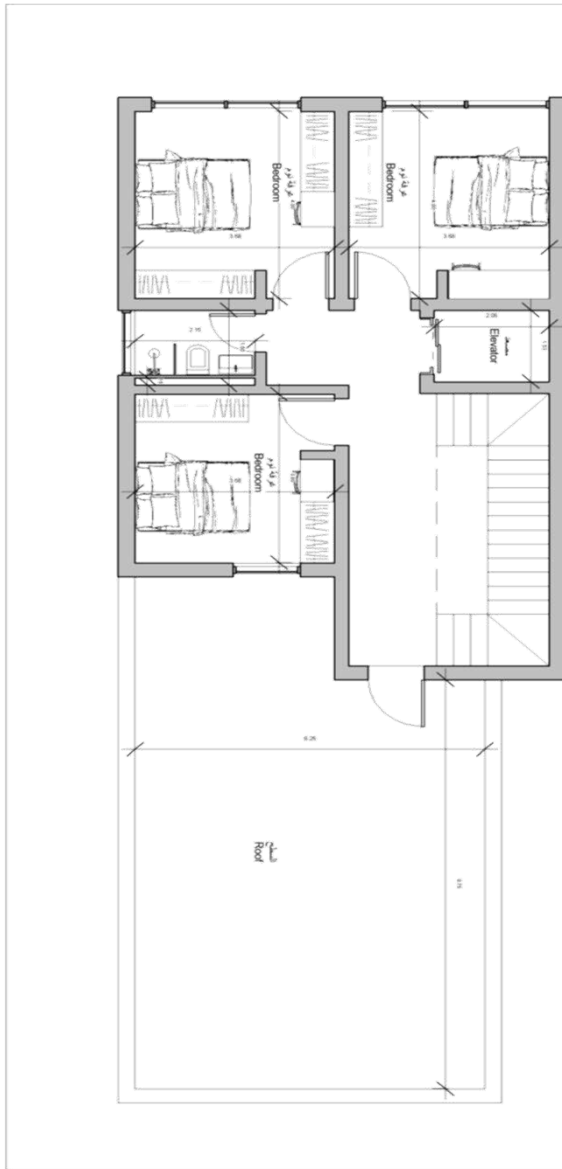

Private villa01 ABUDHABI, UNITED ARAB EMIRATES

Private 250 sqm villa comprises five bedrooms, including a master bedroom, and features two outdoor gardens that provide ample natural lighting and ventilation for the kitchen and living spaces.

Architectural design+3D rendering exterior, interior, landscape.

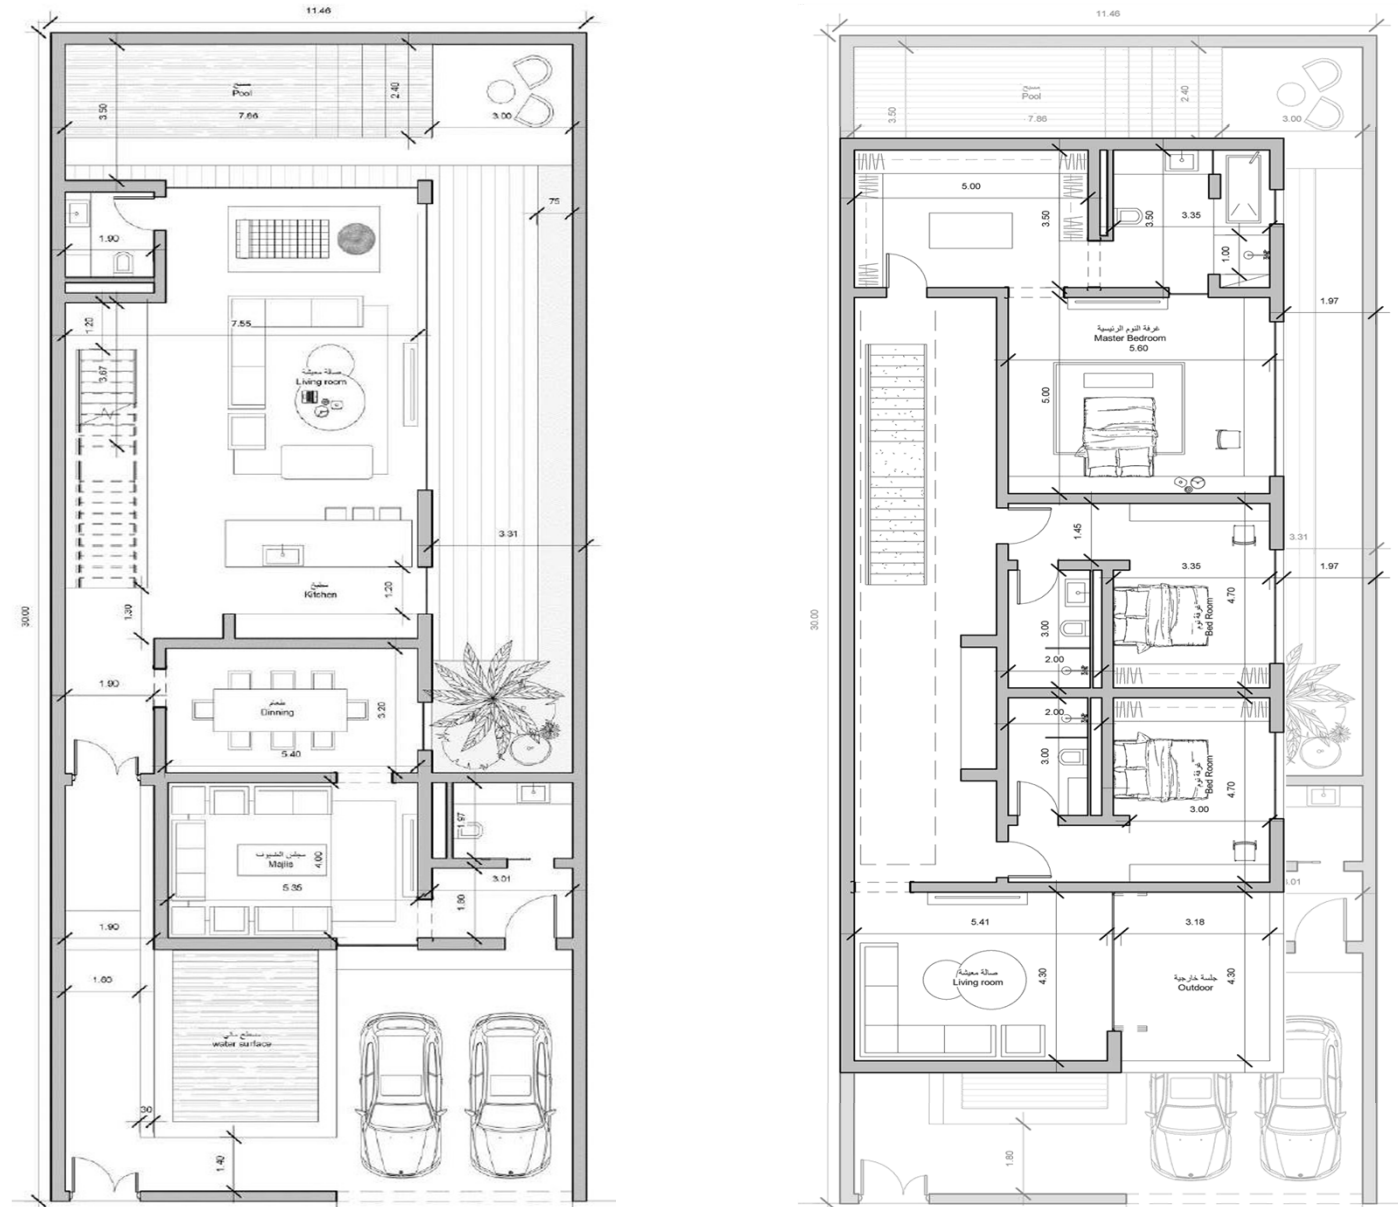

The private family sleeping room section extends to the third floor, featuring three kids rooms and an open roof terrace for outdoor seating.

Private villa ABUDHABI, UNITED ARAB EMIRATES

Private 330 sqm villa offers two bedrooms, including a spacious master bedroom with a large dressing area. The villa is surrounded by an outdoor garden that enhances natural lighting and ventilation for the kitchen and living spaces, creating a refreshing and vibrant atmosphere..

Architectural design+3D rendering exterior, interior, landscape.

The use of low minimal materials in the project not only blends naturally with the desert landscape but also reduces costs, making it a budget-friendly choice.

Private Villa 02 TLEMCEEN-ALGERIA

Private 434 sqm villa features four bedrooms, including a master bedroom, an office, a shared dining room, a majlis (sitting area), and an outdoor landscape that encompasses a pool.

Architectural design+3D rendering exterior, interior, landscape

Open space are strongly connected to the outdoors landscape with uninterrupted view from the kitchen, family dining, and the living room to the private backyard for the family use only.

HOSPITALITY

Guest House

Architectural design+3D rendering exterior, interior, landscape.

A detached guest house spans across 2000 sqm and boasts two guest bedrooms, along with dining, living, and gym areas. Its design provides a sweeping panoramic view of the central pool and garden, adding to the overall appeal of the space.

The west-facing facade of the guest house is carefully aligned with the garden and services area, strategically blocking direct sunlight and maximizing the benefits of shading. This thoughtful design approach helps to minimize heat and create a comfortable environment within the guest house.

Majlis Interior design

Interior design for a 92 sqm private majlis

Architectural and interior design

COMMERCIAL

Commercial Showrooms

Four multi-use showrooms, featuring generous plan areas of 300+ sqm each. The design prioritizes a modern facade that ensures an appealing and cohesive appearance from all elevations..

Architectural design+3D rendering exterior, landscape.

Introducing new era of architectural commitment aims to redefine the landscape of commercial buildings in our community, aligning with the standards of rapid world-class development. It represents a significant leap forward, introducing a fresh approach that elevates the overall quality and stature of commercial structures..
